

# ROAD BADGER™

## EnCana Quantities Survey Estimate of

### Environmental Credits

Re: Non-Renewable Resources  
GGE (CO<sub>2</sub>e) Reduction

Amount of road worked by Road Badger	117 kms /or 117,000 m
Average road width	4 m
Average gravel thickness required	0.15 m
Total estimated gravel required to resurface conventionally	70,200 m <sup>3</sup>
185 tonnes per 100 m <sup>3</sup> = 129870 tonnes	
*Total gravel savings using the Road Badger	<b>70,200 m<sup>3</sup></b>
Average load/gravel truck	13 m <sup>3</sup>
Total number of gravel truck loads	5,400
Average round trip/truck	7 hrs
Total hours	37,800 hrs
Average fuel/hr/truck	10 gallons
*Total fuel savings	378,000 gallons/or <b>1,430,730 litres</b>
Price per liter	\$0.65 to \$0.70
*Greenhouse Gas Emission Reduction @ 2.8 Kg CO <sub>2</sub> e per Litre of Diesel fuel = (Environment Canada Report April 2001)	<b>4,006,044 Kg</b>
